INTUITION

with Vedanta Suravi

Transcends Logic

26th, 27th and 28th of May 2017

Alcanar playa. Hotel Carlos III

Contact your inner wisdom
in a practical way,
deep and fun

Do you dare to feel?

Opening up to Intuition...

An invitation to explore the intelligence of your heart. In a space of play, exploration, love and acceptance, you have the opportunity to discover that **you can** directly access the Source, the origin of all creativity and intuition.

We all come into the world with the ability to connect and channel with the Source of Wisdom that is our Intuition. But we do not connect, because we believe that we cannot, because we have not been taught, because they have convinced us that only "special" people can do it ...

Fear limits us and slows us down, preventing us from paying attention and listening to our inner voice which is intuition. **It is part of you! It is your natural right!**

"The heart knows what the mind ignores" Osho

Feeling ... Dancing ... Meditating ... Playing...

This workshop will help you to:

- Listen and learn to trust your inner voice. The answers you are seeking are within you. And if you work with people this gift will make your work easier.
- Experience the power of trust.
- Take the easiest and quickest way to make a decision. It has happened to all of us that suddenly you have the sensation of knowing, without knowing how we know. That "something" is Intuition.
- Review the whole belief system (eg, "life is very hard", "I cannot", "I have to", "it is impossible") that limits us and prevents us from recognizing and expressing our true nature.
- Give yourself the opportunity to explore your own judgments through "easy tools" that you can use in your daily life.
